Introduction How Do Ships Navigate From Place To Place At ...

Navigators find their position on the earth’s surface by observing the location of the stars. They need several things to do this: • An angle-measuring instrument called a sextant, to measure the angle of the stars above the horizon • A chronometer for telling time • Accurate charts so the navigator can find ...

P-10 - How It Works

Our stories disclose in a general way what we used to be like, what happened, and what we are like now. If you have decided you want what we have and are willing to go to any length to get it — then you are ready to take certain steps. At some of these we balked. We thought we could find an easier, softer way...
